DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 3-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In the claims, for example, there is no antecedent basis for "the base region"(claim 1, line 3; claim 3, line 3; claim 8, line 3), "the top region" (claim 1, lines 3-4; claim 3, line 5; claim 8, line 4), "the hatch" (claim 1, line 7; claim 3, line 7; claim 8, line 7), "the supply means" (claim 8, line 18), etc. Also, it is not clear as to which opening "the opening" (claim 1, line 18; claim 3, line 19) refers. Does it refer to the "top opening" or the "auxiliary discharge opening"? Clarification is requested.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1 and 3-20 are rejected under 35 U.S.C. 102(a) as being clearly anticipated by EP 1 422 289 A1. The EP 1 422 289 A1 reference clearly discloses a sprinkling device for making wine including a fermentation tank (8), and auxiliary tank

(4), first discharge means (12), and second discharge means (18). Thus, the structural features of the instantly rejected claims are structurally met by the reference. While features of an apparatus may be recited either structurally or functionally, claims directed to an apparatus must be distinguished from the prior art in terms of structure rather than function.

Response to Arguments

Applicant's arguments with respect to the claims have been considered but are moot in view of the new grounds of rejection.
